You are here by notified that Southeast Colorado Power Association proposes to make the following changes in its tariffs to become effective with the January 2012 billing mailed on or about February 5, 2012. The changes proposed will result in an overall annual increase of approximately \$1,496,250 or approximately 6 percent based upon a cost of service study performed for the twelve month test period ending July 31, 2011. The purpose of these revisions is to recover increases in the cost of internal expenses of approximately 3% as well as approximately 3% of increased power costs from our supplier Tri-State Generation and Transmission Association. The proposed changes are listed below.
