Residential LED Lamps and Fixtures

Maximum of 50 lamps per account per year, unless prior authorization is received from Tri-State

- Medium base (standard residential base), GU24 base, other residential oriented base or, fixtures with integrated LEDs that meet the above criteria qualify
- LED fixtures with multiple light sources (e.g., multiple LED tubes, rope-light, or under counter lighting) are designated as one fixture
- Applies only to equipment that is purchased by the Member System, member-owner or a state authorized Low Income Weatherization Agency

Tri-State offers:

- 50% of lamp or fixture cost
- Capped at \$8 per lamp or fixture Product & Application Requirements
- Lamps or fixtures must have a minimum output of 500 lumens
- No attachments required

Pole Mounted LED Lighting

Only new LED fixtures qualify

- Minimum Lumens as stated in the application
- Lighting directly attached to buildings, signs, parking garages, or off-street pedestrian lighting, bollards or lamps of less than 2,100 lumen output do not qualify as Pole Mounted Lighting
- Screw-in LED lamps and LED retrofit kits do not qualify as Pole Mounted Lighting. Please see the LED Lamps Only section on the Commercial LED Lighting application form

Tri-State offers:

The incentives will be the lower of:

- 25% of the material cost for each head,
- Per project cap of \$20,000 applies only to Pole Mounted Lighting Category

Commercial LED Lighting

- Includes exterior wall mounted lighting, exterior pole mounted lighting, refrigerated case lighting, and interior lighting
- For both new construction and retrofits
- Design Lights Consortium or Energy Star® certification required for all lamps and fixtures
- One project per category, per member-owner account per year
- Product specification sheets must be included
- Product model numbers, quantities & cost must be verifiable

Tri-State offers:

The incentives will be the lower of:

- 25% of the material cost for each head,
- Per project cap of \$20,000 applies only to Pole Mounted Lighting Category

Rebates offered

Exit Signs and Occupancy Sensors

Include product make and model information • Exit Signs must be illuminated and hard-wired

Tri-State offers:

Exit signs- \$7 each • Occupancy sensor- \$15 each

Refrigerated/Freezer Case LED Lighting

New construction and retrofit projects qualify
Incentive applies to medium and low temperature reach in refrigerated cases and multi-deck open cases

Tri-State offers:

Reach-in cases: \$60 per door • \$10 per linear foot for top lighting of multi-deck open cases • Per Project Cap of \$3,000 (50 doors or equivalent)

Heating & Cooling

Evaporative Cooler

- Itemized receipt
- Product make & model information
- Minimum 2,500 CFM Product Guidelines
- Replacement or new installations qualify
- Limit 2 per member account
- No window or portable units

Tri-State offers:

- \$200

Whole House Fans

- Itemized receipt
- Replacement or new installations qualify
- Limit 2 per member account

Tri-State offers:

- \$100

Product

Smart Thermostat

Requirements & Guidelines

- Limit two thermostats per member account, except for line voltage
- Line voltage Smart thermostats limit is five per member account
- Smart Thermostat must be WiFi network capable and installed at the consumer account location.
- Managed programs include member system led demand response control or time of use rate

Rebates offered/Tri-State/SECPA

Tri-State Offers:

- \$25
- \$50 when member is participating in managed member system program.

EnergyStar® Rated Split System Air-Conditioners Incentive

Itemized receipt, including breakout of equipment and labor

- Must be EnergyStar® rated
- Minimum 16 SEER or 15.2 SEER2
- Minimum qualifying equipment size is 1 ton
- Window units do not qualify

EnergyStar® rating – A complete list of qualified equipment is available at www.energystar.gov

- SEER and SEER2 are an industry performance indicator of cooling performance for air conditioners and heat pumps based on the matched set of indoor and outdoor equipment

Tri-State offers:

- \$100/unit

Electric Thermal Storage (ETS) and Thermal Slab Units (TSU) Incentive

Product Requirements

Units must be controlled by timers or a master control system

- Minimum qualifying load for ETS is 1 kW

Tri-State offers:

- Controlled Off-Peak Heating ETS – \$16/kW
- Controlled Off-Peak Heating TSU – \$12/kW

SECPA offers: \$4/kW for ETS units

Heating & Cooling

Product

Electric Heat Pump – Air Source (Traditional & Mini Split)

Requirements & Guidelines

Equipment manufacturer and model number identification • Relevant equipment metrics (e.g. SEER, HSPF or, HSPF2)

• Itemized receipt, including breakout of equipment and labor

Accounts maybe eligible for more than one rebate depending on project scope or building type and will be handled on a case-by-case basis

- SEER and SEER2 is an industry performance indicator of cooling performance for air conditioners and heat pumps based on the matched set of indoor and outdoor equipment
- HSPF and HSPF2 is an industry performance indicator of heating performance for heat pumps based on the matched set of indoor and outdoor equipment

Rebates offered/Tri-State/SECPA

Tri-State offers:

Tier 1- Efficient Air Source Heat Pump o Required HSPF \geq 9.0 and SEER \geq 15 or, HSPF2 \geq 7.6 and SEER2 \geq 14.3 o \leq 2 tons = \$675 (not to exceed 50% equipment cost) o $>$ 2 tons = \$1800 (not to exceed 50% equipment cost) • Tier 2 - Cold-Climate Certified Air Source Heat Pump o HSPF \geq 10.0 and SEER \geq 16 or, HSPF2 \geq 8.5 and SEER2 \geq 15.2; variable speed compressor or a minimum of 3 stages (settings for fan speed) o \leq 2 tons = \$1000 (not to exceed 50% equipment cost) o $>$ 2 tons = \$2400 (not to exceed 50% equipment cost)

• Air-to-water heat pump units will be taken on a case-by-case basis. Please include manufacturer, product model number, the rated capacity/size (in tons) and any efficiency specifications available. Program staff will validate specifications and calculate rebate using the same tier structure as air source heat pumps.

• \$100/unit additional incentive for central air source with integrated controlled ETS backup in lieu of a separate ETS incentive

SECPA offers:

\$25/ton with electric resistance backup • \$25/ton central air source with non-electric backup

Heating & Cooling

Product

Air Source Heat Pump Quality Install

Electric Heat Pump – Ground Source

Requirements & Guidelines

Installer applications must be submitted with the application for the member-consumer heat pump rebate application • Attachments – completed forms should be attached to the heat pump application form Product Guidelines • Contact Tri-State staff to enroll interested contractors • Installers must complete training and complete required application to qualify for incentives • Multiple units installed at one account are subject to a limit of one (1) installer incentive. Tri-State staff should be contacted for interpretation or approval prior to installation

Product & Application Requirements
Manufacturer and model number identification • Relevant equipment metrics (EER, COP) • Itemized receipt, including breakout of equipment and labor

Product Guidelines • EnergyStar® rating not required • New or replacement ground source heat pumps with closed-loop or open-loop water source heat pumps qualify • A desuperheater is an optional heat transfer device for domestic water-heating from a ground source heat pump • Back-up and/or hot water storage tanks associated with a desuperheater are not eligible for additional rebates • EER is an industry standard ratio of the cooling capacity to the power input • COP is an industry standard ratio of useful heating or cooling provided to work required

Rebates offered–Tri-State/SECPA

Tri-State offers:

Up to \$250 per installation for certified installers

Tri-State offers:

\$500 per ton for new systems • \$250 per ton for replacement systems

SECPA offers:

\$50/ton for central units \$50/unit additional incentive for Energy Star Rating (minimum 3 tons)

Water Heating

Product

**Standard
Electric
Resistance
Water Heaters
& Air Source
Heat Pump
Water Heater**

Requirements & Guidelines

- 30-gallon tank minimum
- Air-source heat pump water heaters must be EnergyStar® rated • DR capability must be verifiable in product specifications • Itemized receipt
 - Managed programs include Member System led demand response control or time of use rate
 - A unit serving as backup for another source such as solar water heating or ground-source heat pump does not qualify.
 - EnergyStar® certified model number only required for Heat Pump Water Heaters

Rebates offered

Tri-State offers:

Electric Resistance Water Heater - \$50/unit for either member system managed water heater programs, fuel-switching from natural gas or propane or Demand Response (DR) capable water heaters - \$30/unit for new construction

- Air-Source Heat Pump Water Heater - \$350/unit

Electric Appliances

Energy Star
Clothes Dryer

- Itemized receipt
- EnergyStar® certified make & model number (for clothes dryer purchases only)
 - Limit of two (2) full-size refrigerator or freezer recycle incentives per consumer per year
 - Refrigerators and freezers are considered full-size at 7.75 cubic feet or greater
 - Proof of recycling preferred but not required

Tri-State offers:

- \$30 per unit for clothes dryer - \$90 per unit for heat pump clothes dryer (vent-less)

Electric Appliances

Product

Induction
Cooktops/range
measuring 30"
or larger

Refrigerator
and/or Freezer
recycling

Requirements & Guidelines

- Replacement of existing gas cooktop/range units require verification; photographs of the old unit are sufficient.

- Limit of two (2) full-size refrigerator or freezer recycle incentives per consumer per year
- Refrigerators and freezers are considered full-size at 7.75 cubic feet or greater
- Proof of recycling preferred but not required

Rebates offered

Tri-State Offers:

- \$100 per unit for electric-to-induction replacements - \$350 per unit for gas-to-induction replacement or new construction

Tri-State offers:

- Refrigerator and/or Freezer Recycling - \$60 per unit

Electric Outdoor Power Equipment

Product

Riding Lawn Mowers

Requirements & Guidelines

- New battery or corded electric equipment only
- Minimum purchase price of \$50
- Itemized receipt

Rebates offered

Tri-State offers:

- Electric riding mower- 25% of cost up to \$1,000
- Additional batteries- 50% of cost up to \$25

Two stage snow blower

New battery or corded electric equipment only

- Minimum purchase price of \$50
- Itemized receipt

Tri-State offers:

- 2-stage/motor snow blower- 25% of cost up to \$250

Electric snow blower

New battery or corded electric equipment only

- Minimum purchase price of \$50
- Itemized receipt

Tri-State offers:

- 25% of cost up to \$150

Electric Outdoor Power Equipment

Electric Chainsaws

New battery or corded electric equipment only

- Minimum purchase price of \$50
- Itemized receipt

Tri-State offers:

- 25% of cost up to \$100

Electric Trimmers, pruners,
leaf blowers, and power-
washers

New battery or corded electric equipment only

- Minimum purchase price of \$50
- Itemized receipt

Tri-State offers:

- 25% of cost up to \$50

Additional batteries

Tri-State offers:

- 50% of the cost up to \$25

Electric Vehicle Charging

Product

Level 2, non-managed
chargers or private
chargers

Requirements & Guidelines

All equipment and installation costs are required to be on one application to be eligible for full rebate amount

- EVSE manufacturer and model number identification
- Itemized receipt, including breakout of equipment and labor

- Note- if an itemized receipt is not available, rebate amounts may be reduced
- Member System is responsible for verification of installation

- Attach photo(s) of installation

It is the responsibility of the installer to ensure that all local and national building and electrical codes are met

- Managed programs include member system led demand response control or time of use rate

Rebates offered

Tri-State offers:

- 50% of total equipment and electric service installation costs up to \$500 for non-managed chargers
- 50% of total equipment and installation costs up to \$1,000 for Member System managed chargers

Electric Vehicle Charging

Product

Level 2 with network and fee for charge capability

Direct Current Fast Charger

Requirements & Guidelines

Please call Southeast Colorado Power at 719-384-2551 for specifications

All equipment and installation costs are required to be on one application to be eligible for full rebate amount

- Publicly accessible installations only
 - Proprietary technology (IE – Tesla) requires pre-approval from program staff and will be limited to 50% of rebate value
 - EVSE manufacturer and model number identification • Itemized receipt, including breakout of equipment and labor
- Note- if an itemized receipt is not available, rebate amounts may be reduced • Member System is responsible for verification of installation
- One rebate per installed charger; multiple charge connectors/ports associated with a single charger do not qualify for multiple rebates • Attach photo of installation

Rebates offered

Tri-State offers:

- 50% of EV charging equipment and electric service installation costs up to \$1,000

Tri-State offers:

- 50% of EV charging equipment and electric service installation costs up to \$3,000 for 50 - 75 kW maximum station output
- 50% of EV charging equipment and electric service installation costs up to \$5,000 for 76 - 149 kW maximum station output
- 50% of EV charging equipment and electric service installation costs up to \$7,500 for 150 & above kW peak output

Commercial and Industrial Products

Product

Requirements & Guidelines

Rebates offered

Commercial & Industrial Electric Motors

- 10hp and above are eligible
- Commercial and industrial motors only
 - Used and rewound motors are not eligible

Tri-State offers:

- \$8/hp
- \$1.50/hp wiring assistance if the motor replaces a fossil-fueled engine, or is a new installation
 - Per project cap of \$20,000

Variable Speed Drive Retrofit

Product & Application Requirements • Itemized receipt

- Electric motor sizes 25hp and larger
- Applies to irrigation, farm, commercial and industrial uses
 - New and retrofit installations only, no maintenance replacements

Tri-State offers:

- Sliding scale from \$1,600 to \$6,800
- Based on motor horsepower
 - Cap of 50% of the VSD equipment costs
 - Per project cap of \$20,000

SECPA offers:
\$2/HP

Motor Nameplate hp	Incentive
Less than 25	No Incentive
25	\$1,600
30	\$1,750
40	\$2,050
50	\$2,350
60	\$2,650
75	\$3,100
100	\$3,800
125	\$4,600
150	\$5,300
200	\$6,800
250	\$6,800
Larger than 250	\$6,800

Commercial and Industrial Products

Product

Forklift Electrification

Requirements & Guidelines

Product & Application Requirements • Itemized receipt
Eligible equipment includes fork lifts and electric
pallet jacks

Rebates offered

Tri-State offers:

Up to \$5,000 for electric forklifts • Up to
\$1,500 for electric pallet jacks • Project
cap of \$20,000

Receipt(s) **must** be legible and clearly show detailed product make & model information, associated labor costs, consumer name, date and verification of purchase/payment unless otherwise noted.
